The Wastes of the Body.

Every seven days the blood, musdes and bones of a man of average size loses two pounds of wornout tissue. This waste cannot be re plenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up, Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be caten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body, Kodol cures Indigestion, Dyspepsia and all stomach troubles.
